Program Report

NSS Unit Code:	AP10032
Title of the Event:	A Literacy Program for Village People
Event Start Date:	09/12/2017
Event End Date:	09/12/2017
Description:	Literacy Program means act of volunteering in an elementary, middle, or high school to assist students with reading or writing skills in accordance with established academic standards. Literacy empowers and liberates people. Beyond its importance as part of the right to education, literacy improves lives by expanding capabilities which in turn reduces poverty, increases participation in the labour market and has positive effects on health and sustainable development. The three main theories are constructivist, sociocultural, and ecological theories. All three of these schools of thought differ in how they explain the process by which children acquire literacy. Our NSS volunteers explained about different literacy programs which plays major role in the society to the village people.
