REPORT OF INDUSTRIAL VISIT TO Miracle Software Solutions, Vijayanagaram

Place of visit: Miracle Software Solutions,
Miracle City-Global Delivery Center
Munjeru Village, Bhogapuram
Vijayanagaram, AP. 535216, India

Date of visit: 17/12/2021

Duration: One day

Number of Students: 80

Faculty coordinators: Mr. G. Venkata Ratnam, professor

Mr. K. Jeevan Kumar, Assoc professor

OBJECTIVES OF VISIT:

- To provide an exposure to students about practical working environment.
- They also provide students a good opportunity to gain full awareness about industrial practices.
- to stay on top of trends and integrate new technology when it's needed.

OUT COMES OF VISIT:

- Practical experience.
- A good opportunity to interact with the experts.
- Helps students to understand the function of the industry.

To,
General Manager,
HWPM-DAE
Manuguru
Telangana

Sir,

Sub: Requisition for permission of one day Visit to MAIN PLANT and SOLAR PLANT of HWPM– Reg.

As you may be aware, V.K.R.,V.N.B. & A.G.K. COLLEGE OF ENGINEERING is one of the most reputed Engineering Institutions in Gudivada, Krishna District Andrapradesh and known for its excellent record in academics and co-curricular activities. The College offers Bachelor degree course in ECE, CSE, EEE, CIVIL, and Mech and diploma courses. The state-of-the-art facilities and competent faculty provide an excellent climate for the all round development of the students.

As a part of the curriculum, the students are required to undertake Industrial Visits to a few industries of repute. We feel it will be fruitful that the students with academic background have a glimpse of the industry in order to have a better appreciation of practical applications of theory. In the above background, we would like to send a batch of about 50 students of EEE branch of III & IV year accompanied by three staff members to visit your esteemed plant preferably in the month of MAY-2022.

I request you, to kindly accord the necessary permission for the above visit and arrange for guiding the students.

We assure you that our students will observe the rules and regulations that are prescribed by your company for the visitors and will in no way disturb the functioning of the company during their visit. We shall be grateful for a favorable response.

Thanking You,

Yours faithfully,

Principal VYGV

ELECTRICAL & ELECTRONICS ENGINEERING

Report of industrial visit to: Heavy Water Plant, Manuguru

Date:04/05/2022

Duration: one day

Number of students:50

Faculty co-ordinator:

1. Mr. K.RAVI SHANKAR Assistant professor
2. Mr. B.CHANDRAKRISHNA Assistant professor

OBJECTIVES:

- Understand the purpose of heavy water
- Understand various types of Protective devices in Electrical Power Systems.
- Understand the types of Circuit breakers and choice of Relays
- Understand the solar plant components

OUTCOMES:

- To gain a deep understanding on power generation using heavy water D2O
- To gain a deep understanding on solar panels
- To gain a deep understanding on switch gear equipment

Dear Sir,

Sub: VKR, VNB & AGK College of Engg., Gudivada- ECE Dept.-Industrial
Visit- Requesting for Permission - Reg.

I have to submit that, as part of the curriculum we are planning to organize the industrial visit for our B.Tech ECE students. According to our student's busy schedule with Mid Exams, University Exams & Project Work we will be planning to visit your organization probably in between 18-04-2022 to 18-05-2022. We are planning to send 100 students along with 4 faculty members will accompany them during our visit. So, kindly grant me permission to visit your organization and allocate a day as per your convenience. Thanking you and awaiting for your positive response.

Station : Gudivada
Date : 07/04/2022

Yours faithfully,

PRINCIPAL

Sub: Permission for Visiting SDSC SHAR Facilities – Reg.

This has the reference to your email/letter with the above subject. In this regard, kindly note that you may visit the Centre as per the date and time given below:

- | | |
|----------------------------|--|
| ★ Approval Ref.No. | : 041/2022 |
| ★ Date of Visit | : 26.05.2022 (Thursday) |
| ★ Reporting Time | : 09:00 hrs. |
| ★ No. of Persons Permitted | : Max. 100 only (Including Staff & Vehicle Crew) |

Kindly confirm your visit either by Fax 08623-225082 or e-mail: ppo@shar.gov.in. If no confirmation is received (along with the visitors list) from Dept. of ECE, V.K.R, V.N.B & A.G.K College of Engineering, Gudivada, on or before 20.05.2022, we presume that you have dropped your programme.

Please go through the General Guidelines printed over-leaf for further details.

For any queries / help, please do not hesitate to write / contact us (Ph.No. 08623 – 226092 / e-mail: ppo@shar.gov.in)

Note: Due to safety measures only 10th Standard and above students will be allowed inside the range facilities of SDSC SHAR.

Wishing you a happy visit.

With regards.

Educational Tour to ISRO, Sriharikota

ABOUT THE INDUSTRIAL VISIT:

S.No	Date	Organization/Place Visited	Year & Semester	No. of Students
041/2022	26/5/2022	SHAR, Sriharikota	III B.Tech & II	72

Department of Electronics and Communication Engineering, V.K.R, V.N.B. & A.G.K College of Engineering organized a three days industrial visit to Satish Dhawan Space Center (SHAR), Sriharikota on 26/05/2022 for III B.Tech. IISemester Electronics and Communication Engineering Students.

The Visit was organized with the prior permission and guidance of Principal **Dr. S. H.V. PrasadaRao** and HOD **Mrs. Ch. Sree Lakshmi**, along with the support of faculty members, students of B.Tech. Electronics & Communication Engineering students have taken hard efforts and initiative which made this visit a grand success.

ABOUT ISRO:

Indian Space Research Organization, formed in 1969, superseded the erstwhile INCOSPAR. Vikram Sarabhai, having identified the role and importance of space technology in a Nation's development, provided ISRO the necessary direction to function as an agent of development's then embarked on its mission to provide the Nation space-based services and to develop the technologies to achieve the same independently.

Throughout the years, ISRO has upheld its mission of bringing space to the service of common man, to the service of the Nation. In this process, it has become one of the six largest space agencies in the world. ISRO maintains one of the largest fleets of communication satellites (INSAT) and remote sensing (IRS) satellites, that cater to the ever-growing demand for fast and reliable communication and earth observation respectively. ISRO develops and delivers application specific satellite products and tools to the Nation: broadcasts, communications, weather forecasts, disaster management tools, Geographic Information systems, cartography, navigation, telemedicine, dedicated distance education satellites being some of them.

To achieve complete self-reliance in terms of these applications, it was essential to develop cost efficient and reliable launch system, which took shape in the form of the Polar Satellite Launch Vehicle (PSLV). The famed PSLV went on to become a favored carrier for satellites of various countries due to its reliability and cost efficiency, promoting unprecedented international collaboration. The Geosynchronous Satellite Launch Vehicle (GSLV) was developed keeping in mind the heavier and more demanding geosynchronous communication satellites

Educational Tour to ISRO, Sriharikota

Gudivada,
31-05-2022

To
The HOD,
Department of ECE,
VKR, VNB & AGK College of Engineering,
Gudivada.

Dear Madam,

Sub: Report on Industrial Visit to ISRO Submitted by the III B. Tech, ECE
Students- Reg.

On May 26th, we students of V.K.R, V.N.B & A.G.K College of Engineering visited Indian space research organization (ISRO) which was located on island of Sullurpeta in Nellore. We started on May 25th night in Gudivada and reached Nellore by May 26th morning and reached ISRO at 9:30 A.M. Our batch of 72 members visited ISRO and our faculty of department of ECE took us to this industrial tour. ISRO is famously known as Sriharikota range (SHAR) and there is a Satish Dhawan Space Center (SDSC) in the name of professor and scientist Satish Dhawan. He had worked as a chairman of ISRO for 20 years. SHAR is located near to Pulicat Lake and of area 36,000 acres.

After that a tourist guide received us and explained clearly about rocket launching, launching versions and about different stations. He explained about different versions like ASLV, PSLV, GSLV ranges, weight, height and amount of fuel required and specific applications. The whole launching of satellite is watched continuously in cameras. There are 60 cameras in SHAR. He took us firstly to the control station.

AT CONTROL STATION:

The control station is in the shape of Aryabhata satellite which is very interesting. In the station the board of directors like chairman and all higher authorities will be there to view the process. All the board members will monitor the rocket launching in step-by-step manner and launch the rocket into the space. They showed a sample video of recently launched satellite. There are different timings like Indian time, geo-space time and time for rocket launching separately.

Eional Tour to ISRO, Sriharikota

The board members will receive information from launching pads and is tract communication. Rocket launching is succeeded or not is known in 30 minutes. The amount of fuel finished in the rocket it splits into different parts and the body of satellite remaining will fall into the sea.

LAUNCHING PADS:

We visited two launching pads in ISRO which are 10 to 20 km far away from each other. The two launching pads were first launching pad (FLP) and second launching pad (SLP). Both FLP and SLP are similar and rocket launching procedure is the same but the difference is, in SLP tower is fixed and rocket will move through hydraulic machines towards the operation tower. Whereas in FLP tower brings rocket towards the operation tower by wings. There will be hydraulic machines and dummy vehicles which were used in before launching and launching of rocket. Through dummy vehicles, before launching it is checked manually. Rocket external part is made up of metal called N206. Finally fuel up to required level will depend on specific applications. There will be defined program for rocket which was designed based on the specific applications.

ISTRACK COMMUNICATION:

Once rocket is launched into free space, ISRO tracking ranging communication (ISTRACK) receives the data from different stations at different locations throughout the rocket in space. ISTRACK then sends the collected information back to the control station of ISRO. Data is collected by ISTRACK through antennas with s-band frequencies. Radars are used to know the position of rocket while it was launched into the space. Whereas ISTRACK monitors the height of the rocket in the orbit. Head quarters of ISRO are located in Bangalore, Tumkur and Lucknow which were deals with southern side. They explained about communication of data transmitter and data receiver in the communication. After that we had lunch at 2:00pm.

AT MUSEUM:

After we visited SHAR museum which consists of old satellites which create imagination that we are in space. We saw many old satellites, orbits which designed by scientists Aryabhata and Dhawan,

We left from ISRO at 4:00pm and reached Gudivada by next day morning.

Thanking you Madam,

Submitted by

III ECE STUDENTS

Educational Tour to ISRO, Sriharikota

This tour is helpful in knowing the real time approach in satellite launching. So, we thank our management, principal and staff of our department for arranging this tour
