- Joint conferences and workshops;
- Team taught courses, including online courses; and
- Visits by faculty, professional staff, and students.

The parties anticipate that a number of these initiatives will occur during the period of this MOU. However, neither party is obligated to agree to any minimum number of activities, nor is this MOU intended to preclude either party from entering into similar agreements with other institutions.

The following initiatives provide good starting places and can be implemented as soon as administrative details are agreed upon between the two institutions:

- Summer internship;
- Cooperation in academic and research programs;
- Industrial visits;

This MOU shall be identified as the parent document of any program agreement executed between the parties. Further agreements concerning any program shall provide details concerning the specific commitments made by each party and shall not become effective until they have been reduced to writing, executed by the duly authorized representatives of the parties.

## **Cooperation in Education and Research**

Cooperation and exchanges may take place with undergraduate, graduate, or post-doctoral students. Each exchange may be for the duration of one academic year, one academic semester, or one intensive course, normally three or four weeks in length, scheduled either between academic terms or during the summer.

Whenever possible, courses will be taught by one faculty member from RSS and one faculty member from VKR. Courses may be taught at VKR, at, or concurrently at both campuses through online capabilities.

Students may engage in paid co-op or paid internship opportunities through placements by the host institution.

### **Responsibilities of the home institution:**

#### **The home institution will:**

- Register its own students for the duration of the internship.
- Submit to the host institution the names and academic credentials of students who would like to participate in an internship.
- Provide the host institution with names of courses that are essential to their own students' curricular plan.
- Ask the student to advise the host institution of any circumstances that may affect his or her year abroad (e.g. medical condition, disability status).
- Advise its students about academic and cultural expectations at the host institution.

### **Responsibilities of the host institution:**

#### **The host institution will:**

- Be responsible for admission decisions of students recommended by the home institution.
- Provide an orientation program for incoming students.
- Endeavor to ensure that students are admitted to courses regarded as essential to their academic programs at their home institutions.
- Assign an academic advisor to all incoming students.
- Assist the incoming student in securing housing.
- Provide the home institution with a final transcript of the student's academic performance.

### **Short intensive courses:**

Short intensive courses, offered during the summer or between semesters, will be taught by a faculty member from either VKR or RSS. Students will pay a flat fee to their home institutions for the course.

The number of credit hours each student will earn will depend on the nature and length of the course and by the department/faculty offering the course.

As previously noted, the parties shall enter into specific written agreements whenever appropriate to clarify and define the nature, extent, and terms of operation for the proposed collaborations, including intellectual property ownership and funding issues. Any agreement entered into by these two institutions will require the approval of appropriate officers from each institution. All agreements and activities covered under this MOU or entered into by the parties must comply with all applicable laws and regulations.

For agreed upon activities, both institutions will make available their facilities and staffs. This MOU will take effect on and will be valid for five (5) years from the date noted in the first line of this document unless terminated by one of the parties. Either party may withdraw from this MOU provided written notification of the withdrawal is given to the other party at least three (3) months prior to the desired withdrawal date. This MOU may be renewed for another period of five (5) years upon mutual written consent of the parties before the expiration date. Each institution will have copies of this agreement.
