Gudivada,  
31/10/2023.

To  
The HOD,  
Department of ECE,  
VKR, VNB & AGK College of  
Engineering,  
Gudivada.

Dear Sir,

Sub: Report on Industrial Visit to Efftronics Systems Pvt Ltd, Submitted by the IV  
B. Tech, ECE Students- Reg.

On OCT-27, we students of V.K.R, V.N.B & A.G.K College of Engineering visited Efftronics Systems Pvt Ltd, which was located at Mangalagiri. We started on OCT-27 morning in Gudivada and reached Efftronics at 2:00 P.M. Our batch of 56 members visited Efftronics and our faculty of department of ECE took us to this industrial tour.

After that a Srupanika mam received us and explained clearly about end-to-end IOT solution provider catering to Smart Railway Signaling, Smart LED, IOT. She explained about different versions and specific applications.

### Smart Railway Signaling

Route signaling and speed signaling are two different ways of notifying trains about junctions. Under route signaling, a driver is informed which route the train will take beyond each signal (unless only one route is possible). This is achieved by a route indicator attached to the signal.

### Smart LED

Smart lighting is an advanced way to light your home. Smart LED bulbs contain software that connects to an app, smart home assistant, or other smart accessory so you can automate your lights or control them remotely, eliminating the need for traditional wall switches.

## IOT

The collective network of connected devices and the technology that facilitates communication between devices and the cloud, as well as between the devices themselves.

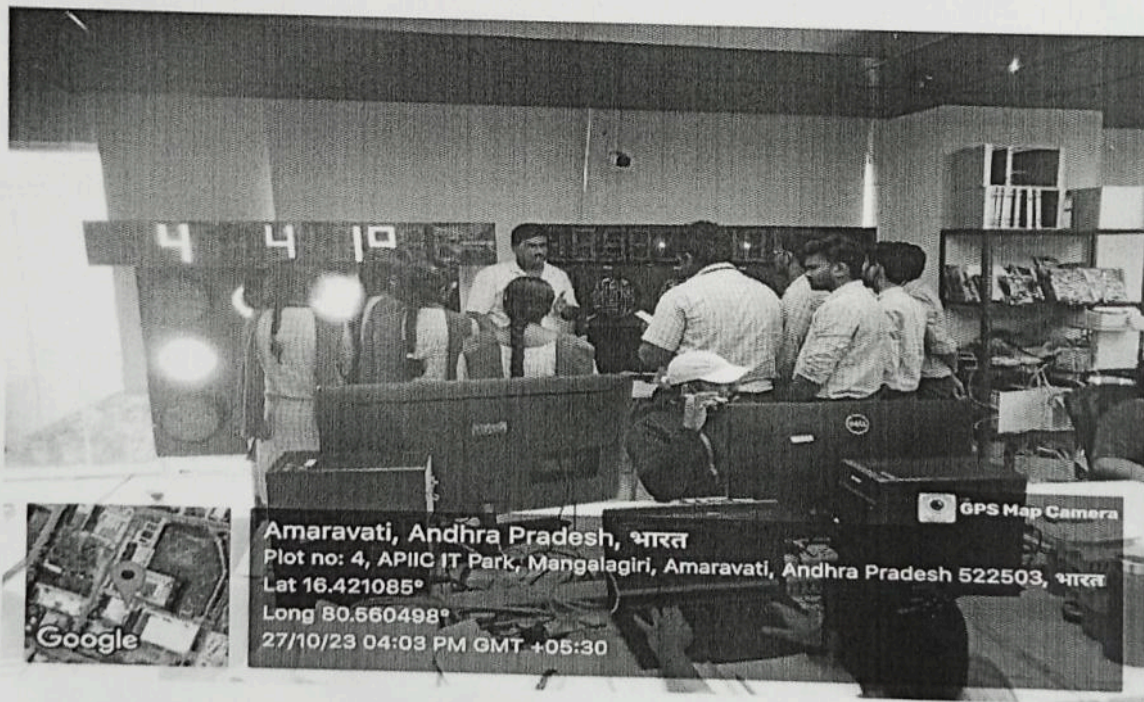

After we visited Efftronics which consists of Smart Railway Systems, LED, IOT which create imagination.

We came out from Efftronics at 6:00 P.M and reached Gudivada at 8:30 P.M.

Thanking you Sir,

Submitted by,
